Introduction

We are an India based organisation provides a range of products and services linked to our core discipline of computer aided design (CAD) within the construction and building services sectors since 1999.

Our main KPO (Knowledge Process Outsourcing) Sectors are :-

- Architectural Detailing
- Building Information Modeling (BIM)
- 3D Modeling
- Structural Detailing
- Home information Packs drawing (HIPS)
- Drawing set for Building Permits
- Reinforcement Detailing
- Bar bending Schedule
- Land Survey Detailing
- Marine Works Detailing
- Landscaping Detailing
- MEP Service Detailing
 - HVAC layout design and detailing
 - Duct workshop / coordination drawings
 - Plumbing layout design and detailing
 - Piping & plumbing shop coordination drawings
 - Mechanical boiler room layouts
 - Fire Fighting Layout
 - Interior & exterior electrical layout design and detailing
 - Schematic wiring / layout diagrams/circuit board assembling diagram
- Paper to CAD Conversions
- Quantity Surveying

Whether you need professional 2D draughting services, 3D modelling, CAD visualisation or fully rendered computer generated images our aim is to deliver low cost, customised solutions to our clients.

Our use of technology for online collaboration and project management means that we can provide a seamless addition or alternative to in-house CAD departments, working

"to place your project in a safe hand"
